

### **Travel to Belize led by Eric Simon**

Embark on an active exploration of jungles, rainforests, underground caves, Maya ruins, and coastal habitats on this 9-day adventure led by Prof. Eric Simon. Marvel at the vast biodiversity and geological features of Belize as you swim, snorkel, hike, and boat your way across the country. Snorkel through some of the most stunning marine reserves and reefs in the Northern Hemisphere and gain insight into the Maya civilization that once ruled this region with excursions to some of the most important archeological sites in Belize.
