

SimonBiologyTravel

Join Prof. Eric J. Simon as he presents educational travel opportunities around the world. Each trip includes:

- All-inclusive pricing: domestic transportation, Eric and Amanda co-leaders, local guides, tips, park fees, meals, bottled water; price does not include international air fare, optional trip insurance, alcohol, souvenirs, or other items as specifically noted.
- Pre- and post-departure online Zoom classes to learn about the biology, culture, and logistics of the trip.
- Service opportunities to help each local community.

Eric J. Simon, Ph.D., is a Professor in the Department of Biology and Health Science at New England College, in Henniker, New Hampshire. Dr. Simon has led over a dozen international trips to learn about biology and culture to such destinations as Belize, Guatemala, Patagonia, Galapagos, Tanzania, the Amazon River, and Cuba. As a biology author, Dr. Simon has over 2 million books in print, translated into 7 languages, and used in over 40 countries.

Travel to the Galapagos led by Eric Simon

Ecuador is one of the most biodiverse countries on earth, and its Galápagos Islands have become a world-renowned site for their lush landscapes and endemic and highly specialized wildlife, including Darwin's finches, giant tortoises, marine iguanas, and more. Join Prof. Eric Simon and discover the native flora and fauna that make up this biodiversity hotspot through activities that explore the wonders that inspired Charles Darwin's theory of evolution by natural selection, an idea that not only influenced his own life, but also changed the history of the world. Prior to traveling, we will meet several times over Zoom to help you learn about evolution, Darwin, and the incredible biodiversity of the Galapagos Islands.

May 19th - 28th, 2024

Trip to the Galapagos

Cost: **\$5,995** all inclusive (except for international airfare)

Number of travelers: 13-16 (including 2 leaders)

Activity level is moderate: walking 2-3 miles on flat terrain, a bit of swimming/floating/snorkeling, boating, appropriate for travelers with a wide range of physical abilities.
